Final Examination, Fall 2022

Course Code: CSE498: Course Title: Social and Professional Issues in Computing

Sections & Teachers: All

Time: 2:00 Hrs

Marks: 40

Answer ALL Questions

[The figures in the right margin indicate the full marks and corresponding course outcomes. All portions of each question must be answered sequentially.]

1.	With tens of billions of internet-connected devices around the world, technology surrounds us like never before. There are many positive aspects to technology – not least, helping us stay connected to others, which has been a lifeline throughout the pandemic – but alongside the benefits, there are also potential health consequences that should be considered. Especially for the children these are more harmful.	CO1
a)	Write the effects of technology overuse and the negative and positive impacts of technology on health.	[5]
b)	How to minimize the impact of health issues for using computer on kids?	[5]
2.	Intellectual property rights are like any other property right. They allow creators, or owners, of Patents, trademarks or copyrighted works to benefit from their own work or investment in a creation. These rights are outlined in Article 27 of the Universal Declaration of Human Rights, which provides for the right to benefit from the protection of moral and material interests resulting from authorship of scientific, literary or artistic productions.	CO4
a)	How does the average person benefit in Intellectual property rights reward creativity and human endeavor, which fuel the progress of humankind.	[5]
b)	Show the comparison between copyright, patent, and trademark with examples	[5]
c)	Describe in details the eligibility conditions and essential prerequisites that are required for patent filing in Bangladesh context.	[5]
3.	After making a programming change in a major bank's computer system, an employee forgot to enter certain commands. As a result, \$15 million disappeared from customers' accounts. The error affected some 150000 withdrawals and transfers between accounts made at cash machines and stores. Customers got their cash and a receipt as normal as the bank computer processed their request. The program then erroneously sent an electronic copy of the withdrawal to a second computer system, which is run overnight to process paper cheques. When the cheque-processing program ran, it deducted the same amount from the account a second time. Customers who checked their accounts in the morning found the extra money missing, and thousands called the bank to complain: anyone who had drawn \$100 from a cash machine, for example, would have had \$200 removed from their account.	CO5
a)	What are some potential consequences of the error? Recommend the solutions to this kind of error.	[5]
b)	If you were the bank president, What will be your decision while making a decision of punishment and what would you say in a statement to the news media or your customers?	[5]
c)	Discuss some advantages and disadvantages customers faced while using online banking instead of traditional banking.	[5]

Midterm Examination, Spring 2023

Course Code: CSE498, Course Title: Social and Professional Issues in Computing

Time: 1.5 Hrs.

Level: 4

Term: 2

Batch: 54

Marks: 25

Answer ALL Questions

[The figures in the right margin indicate the full marks and corresponding course outcomes. All portions of each question must be answered sequentially.]

1.	The shortage of agricultural labor supply has been a global challenge. Agricultural labor has declined in its appeal for several reasons including low wages, physically demanding work, urbanization, and aging populations. Automation in the agricultural sector can help alleviate these labor and demand challenges and has been in development. Automated technologies bring the benefits of greater efficiency and reliability to improve crop yields over longer working hours. However, this process is more costly and it is very difficult to capable for mis level income customers. More production can be a good solution to bear the cost.	CO1
☒	a) Do you think agriculture automation is the best solution for the problem in cropping? Give five arguments for your opinion.	5
☒	b) Mention some uses of computing in agriculture sectors for high yielding with cost effective plan.	5
2.	Everyone has the right to freedom of opinion and expression; However, sometimes this freedom misused and raise difficulties. Therefore, it is important to understand the proper definition of Freedom of speech. Now, answer the following questions:	CO2
